HOW COMMUNITIES HEAL tells the stories of a unique group of New Zealand social entrepreneurs, and their work to create systemic and sustainable solutions to New Zealand's social challenges.

This series of profiles seeks to foster social innovation in New Zealand by highlighting the particular variety of leadership that brings insight, entrepreneurship and practical hope into our communities.

The series features the personal stories of being a social innovator, and looks at the projects and programmes they are operating. Each profile has photographs of the entrepreneurs and their projects, as well as scenes from their participation in the retreats of the New Zealand Social Entrepreneur Fellowship.

HOW COMMUNITIES HEAL also has a series of articles from vivian Hutchinson on entrepreneurship and innovation, and the tools and ideas that are helping make these projects happen.
